Education's role in addressing climate change

#ESDfor2030

Education

- Helps informed decision-making
- Empowers all people, including the under-represented, to take action

Education for Sustainable Development

- UNESCO education sector's response to the inter-connected and dramatic challenges the planet faces
- Holistic approach to address sustainability issues

Greening Education

- Rooted in the longstanding work in Education for Sustainable Development (ESD), and on education's role to tackle **climate change**
- Equips individuals and communities with the **understanding, skills, values and attitudes** to engage in **transformative action** to shape green, low-emission and climate-resilient societies

Greening Education Partnership

Greening Education Partnership?

Global initiative to deliver strong, coordinated and comprehensive collaboration among stakeholders on climate change education

- **Synergetic and strategic implementation**
- **Knowledge management and research**
- **Advocacy, communication and monitoring of progress**

Background

- Article 6 of the **UN Framework Convention on Climate Change**
- Article 12 of the **2015 Paris Agreement**
- 2030 Sustainable Development Agenda (**SDG 4.7** and **SDG 13.3**)
- ESD for 2030

4 Pillars of Greening Education Partnership

GREENING SCHOOLS

From early childhood through adult education, work to ensure that all schools achieve green school accreditation, including teacher training and higher education institutions.

GREENING CURRICULUM

Embrace a life-long learning approach that integrates climate education into school curricula, technical and vocational education, workplace skills development, teaching materials, pedagogy, and assessment.

HERE'S HOW YOU CAN COMMIT

Countries and organizations are encouraged to join the Greening Education Partnership, expressing their interest in at least one of the four action areas.

Strengthen education systems to be climate-smart with adequate measures, and ensure teachers and policymakers are trained.

GREENING TEACHER TRAINING AND EDUCATION SYSTEMS' CAPACITIES

Engage communities by integrating climate education in life-long learning, in particular through community learning centres and learning cities.

GREENING COMMUNITIES

Education to Address Climate Change

RECOMMENDATION 1

Emphasize the urgent need for collective action to address climate change through education.

RECOMMENDATION 2

Include a climate change education component in all development policies.

RECOMMENDATION 3

Integrate climate change education at all stages of education.

RECOMMENDATION 4

Support educational institutions to be green and climate-ready.

RECOMMENDATION 5

Embed climate change perspectives into green skills and vocational education programmes.

RECOMMENDATION 6

Empower teachers with comprehensive climate change education training and resources.

RECOMMENDATION 7

Engage with the youth to build a green future.

RECOMMENDATION 8

Incorporate local and traditional knowledge that supports low-carbon lifestyles in climate change education.

RECOMMENDATION 9

Promote partnerships to foster innovations in climate change education.

RECOMMENDATION 10

Strengthen and create education-centred portals to provide reliable information on climate change.
